SUN CITY EMERGENCY PHONES

There are 12 Emergency 9-1-1 phones located in Sun City. They are to be used only in an emergency but do you know how to use them?

And equally important, do you know where they are located in the areas you frequent?

➤ First of all, the Emergency 9-1-1 phones are free. Secondly, you do not need to dial a number, it is done automatically if you push the button next to the small sign, "PUSH FOR HELP." You will be asked the street number where you are and the nearest cross street. This information is provided on the adjoining sign showing that location's street address and nearest cross street. The community Patrol number is also listed and they should also be notified as soon as possible.

➤ Now, an emergency has occurred and 9-1-1 has been contacted. Stay calm. Speak clearly. State the problem. In addition to the address and nearest cross street where the incident has occurred, be prepared to provide your name, the patient's problem or type of incident, their approximate age and if they are conscious or breathing. Listen carefully and follow their directions. Stay on the phone until directed to hang up by dispatch or on-the-scene emergency response personnel.

➤ 12 LOCATIONS OF 9-1-1 PHONES:
