

Emergency Preparedness Committee

RADIO COMMUNICATIONS

**Be Part of the Solution
in a Disaster**

Emergency Operations Center:

2-Way radio operators receive incoming messages from District Command Posts and our mobile support teams, dispatching response teams as needed. HAM radio operators communicate with outside emergency organizations reporting our community's conditions in a disaster. Our radio teams routinely practice to keep their skills fresh & equipment ready to go in a disaster.

District Command Posts:

Calls regarding residents' needs in a disaster originate at the District Command Posts and are transmitted to the Emergency Operations Center for assistance. Join us and help provide needed disaster assistance for our Sun City community.

On-site training is held monthly to acquaint the new volunteers and refresh current ones about basic radio protocols. To be a radio volunteer or sign up for radio training, contact Scott at Radio.EPC@scpdca.com
